Data Security and Privacy

Technology is an integral part of the teaching and learning experience in the West Buffalo Charter School. The ever-increasing availability of online teaching and learning resources comes with inherent risks and concerns regarding student data, privacy and student work. We as a school have a responsibility to ensure that student's data and privacy is adequately protected while using any online digital resource for school work. West Buffalo Charter School is providing the following information/resources for parents, teachers, and the community so that they can better understand what student data is, how student data is collected and used and the laws and practices that the school adheres to in order to protect student data and privacy.

West Buffalo Charter School oversees a wide range of information about students. The district manages personally identifiable information (PII) about students in accordance with the federal laws known as FERPA and COPPA. More information regarding federal and state laws, district policies and guidelines that address technology use and student data privacy are listed below.

New York State Data Privacy and Security

- <u>Ed Law 2D</u> Education Law § 2-d went into effect in April 2014. The focus of the statute was to foster privacy and security of personally identifiable information (PII) of students and certain PII related to classroom teachers and principals.
- Part 121 Amendment to Ed Law 2D Although the proposed regulations largely restate the requirements of Education Law § 2-d, there are new elements, including the adoption by the New York State Education Department of a data security and privacy standard, as was required by the statute. The Department will adopt the National Institute for Standards and
